

Standard Contract Rider No.12

THIS RIDER, dated _____ 20 ____ ,
is attached to and becomes a part of an agreement dated _____ 20 ____ ,
between _____ herein
called the "Customer", and The Detroit Edison Company herein called the "Company", for voluntary electric load reduction at
the Customer's premises located at _____

The Customer, at its option, may reduce load when requested by the Company in exchange for payment under the terms and conditions of Standard Contract Rider No. 12. The Company will pay the Customer for such load reductions under the terms and conditions of Standard Contract Rider No.12. The rate as filed with and approved by the Michigan Public Service Commission is attached hereto. This rate is subject to change from time to time by Order issued by the Michigan Public Service Commission.

Minimum Load Reduction: _____ kW

Anticipated Load Reduction: _____ kW

Initial Bid Price: _____ ¢/kWh. The initial bid price will be used as the basis for customer payments unless changed by the customer as provided for in the rate.

Method of calculating load reduction: Specified in Attachment 1

This Standard Contract Rider will terminate on December 31, 2002.

Standard Rider Contract No 12 Capacity Release

Availability of Service: Available to customers desiring a voluntary capacity release payment for loads not less than 1,000 kW at a single location. The customer must reduce load by at least 50% of the normal load of the facility. At the option of the Company, the 1,000 kW and 50% minimum loads may be waived when the load is separately metered. This rider is effective for service rendered on or after May 15, 1998.

Terms of Service: Customers will be requested to curtail load with not less than 1-hour notice from the Company. The customer shall be provided, whenever possible, notice in advance of probable reduction request and estimated duration of reduction. Load reduction requests are at the discretion of the Company.

Payment Terms: The customer will bid a price in ¢/kWh for each load reduction that they include in the program. While there is no specified cap (in ¢/kWh) for the bid, the Company reserves the right to reject bids. The Company will pay the customer for all such load reduced at the bid price. A customer's bid may be revised no more than twice a month. A revised bid must be submitted to the Company prior to 11:00 a.m. on Thursday in order for it to be in effect on the following Monday. The Company will first request customers with the lowest bid price to reduce load, and, if necessary, will subsequently make the request to higher bid prices.

All individual customer information, including bid prices, will be kept confidential.

Calculation of Load Reduction: Load reduction will be verified by metered quantities whenever possible. Where the amount of load reduction is not directly metered, the Company and the customer will mutually agree on calculation methods. The customer shall agree to provide information in order to make such calculations.

No payment will be made for load reduction required by Emergency Electrical Procedures as defined under Rule B-3.7.

Special Terms and Conditions: Special metering is at the option and expense of the customer. The customer is required to provide the Company with notification of load reduction requests.

Term: This rider expires December 31, 2002.
